| <b>Project Name</b>  | SmartLender – Applicant Credibility Prediction for Loan Approval |
| <b>Maximum Marks</b> | 4 Marks                                                          |

| SAYS                                                   | THINKS                                             |
|--------------------------------------------------------|----------------------------------------------------|
| I need my loan to be approved quickly.                 | Will my income and credit history be sufficient?   |
| I hope my application meets the bank's requirements.   | What if my loan application gets rejected?         |
| I want a simple and transparent loan approval process. | I hope the approval decision is fair and accurate. |

### PERSON A: Loan Applicant (Prospective Borrower)

| DOES                                             | FEELS                                               |
|--------------------------------------------------|-----------------------------------------------------|
| Submits personal and financial information.      | Anxious about the approval decision.                |
| Uploads the required documents for verification. | Hopeful that the loan will be approved.             |
| Checks the loan application status regularly.    | Relieved when the application is processed quickly. |
