

No. of Functional Features Included in the Solution

Date	15 July 2026
Team ID	*****
Project Name	SmartLender – Applicant Credibility Prediction for Loan Approval
Maximum Marks	5 Marks

This document lists all the functional features included in the project solution.

S.No	Feature Name	Feature Description	Status	Module / Component	Marks Contribution
1	Home / Overview Page	Displays project introduction and provides a Start Prediction button to navigate to the application form.	Done	Frontend	10%
2	Loan Application Form	Collects applicant information including Gender, Married, Dependents, Education, Self Employed, Applicant Income, Coapplicant Income, Loan Amount, Loan Amount Term, Credit History, and Property Area.	Done	Frontend	20%
3	Data Preprocessing	Encodes categorical values, scales numerical features, and prepares the input in the format expected by the trained model.	Done	Backend	20%
4	Loan Approval Prediction	Uses the trained Random Forest machine learning model to predict whether the loan application is approved or rejected.	Done	Backend / ML	25%
5	Prediction Result Page	Displays the loan approval prediction (Approved/Rejected) based on the applicant's information.	Done	Frontend	15%
6	Responsive User Interface	Provides a simple, clean, and user-friendly interface with consistent styling across all web pages.	Done	Frontend	10%
7	User Authentication	Login and authentication for applicants or administrators.	Pending	Backend / ML	—
8	Application Database	Stores applicant information and prediction history for future reference and analysis.	Pending	Backend / Data	—

Feature Summary

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	6
Core / Must-Have Features	5 (Home Page, Loan Application Form, Data Preprocessing, Loan Prediction, Result Page)
Additional Features	1 (Responsive User Interface)
Features Tested & Verified	6 (Successfully tested from Home Page → Application Form → Prediction Result)

Feature Category Breakdown

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	3	Home page, intake form, result page
2	Backend / Logic	2	Flask Routing, Data Preprocessing, Loan Prediction
3	Database / Storage	0 (planned)	Applicant Database, Prediction History
4	API / Integration	0	—
5	Security / Authentication	0 (planned)	User Login, Admin Login
